

## Profile

MEBA are pioneers in band saw technology. Since 1958 the company has invested heavily in technology resulting in considerable developments in the field of bandsawing. MEBA have a wide range of metal bandsawing machines to choose from. Ranging from small manual and semi-automatic machines, up to double mitre fully automatic CNC machines. Customers include small workshops, steel fabricators, steel stockholders, and the automotive industry as well as production engineering and heavy industry. MEBA can also manufacture customized in-feed and out-feed material handling systems with a variety of material end stops to suit tailor made requirements.

## Digital Statement

For us change has always meant observing and evaluating new technologies while continuously incorporating what is useful for the final user into our products. That is why close dialogue with you is and remains a central component of our work. Also in the digital world, we are pursuing the goal of being one of the best providers of benefit-oriented sawing solutions worldwide in the future.

In the end, digitization should benefit everyone.
