Hamelin, Germany, 30. January 2020

New Year, New Award – Lenze Top Employer Again in 2020

Automation specialist from Hamelin once again certified as “Top Employer Germany” and “Top Employer Engineers”

Lenze has again succeeded in impressing the experts of the independent, globally recognised Top Employers Institute of its qualities as an employer. The leading automation specialist based in Hamelin is a certified “Top Employer Germany 2020” and “Top Employer Engineers 2020”. Its guarantee for success: investing in employees because they are the foundation of the company’s success.

This year, the independent Top Employers Institute found it particularly positive that Lenze is continuously developing itself as an employer in order to remain attractive to future generations as well. For the certification, the company was put through its paces in a multi-stage process. In particular, Lenze was able to impress with future-oriented training measures, performance-based and competitive remuneration, as well as an exciting working environment. Furthermore, the programmes for reconciling family and work life were also judged favourably, such as flexible working hours and the option to work from home.

The Top Employers Institute from Düsseldorf is an internationally active certification company, which has set itself the goal of sustainably improving conditions for employees according to the motto “for a better world of work”. It conducted the multi-stage review process for the award.

About Lenze

Lenze is a leading automation company for the machine-building industry and a specialist in Motion Centric Automation. As a systems supplier with solutions competence, Lenze works for and with its customers to create high-quality mechatronic products and packages, powerful systems consisting of hardware and software for machine automation, as well as digitalisation services in areas such as big data management, cloud or mobile solutions, and software for the Internet of Things (IoT).

Lenze employs 3,969 employees worldwide and is represented in more than 60 countries. Lenze's growth strategy will see the company continuing to invest strongly in the areas relating to Industry 4.0 in the coming years – with the aim of increasing sales revenue and profitability.
